slug, 1. any of numerous chiefly terrestrial pulmonate gastropods found in most parts of the world where there is a reasonable supply of moisture and closely related to the land snails with a rudimentary shell often buried in the mantle or entirely absent. 2. a lump, disk, or cylinder of metal. 3. bullet. 4. a single drink of liquor: shot. 5. a heavy blow, especially with the fist.

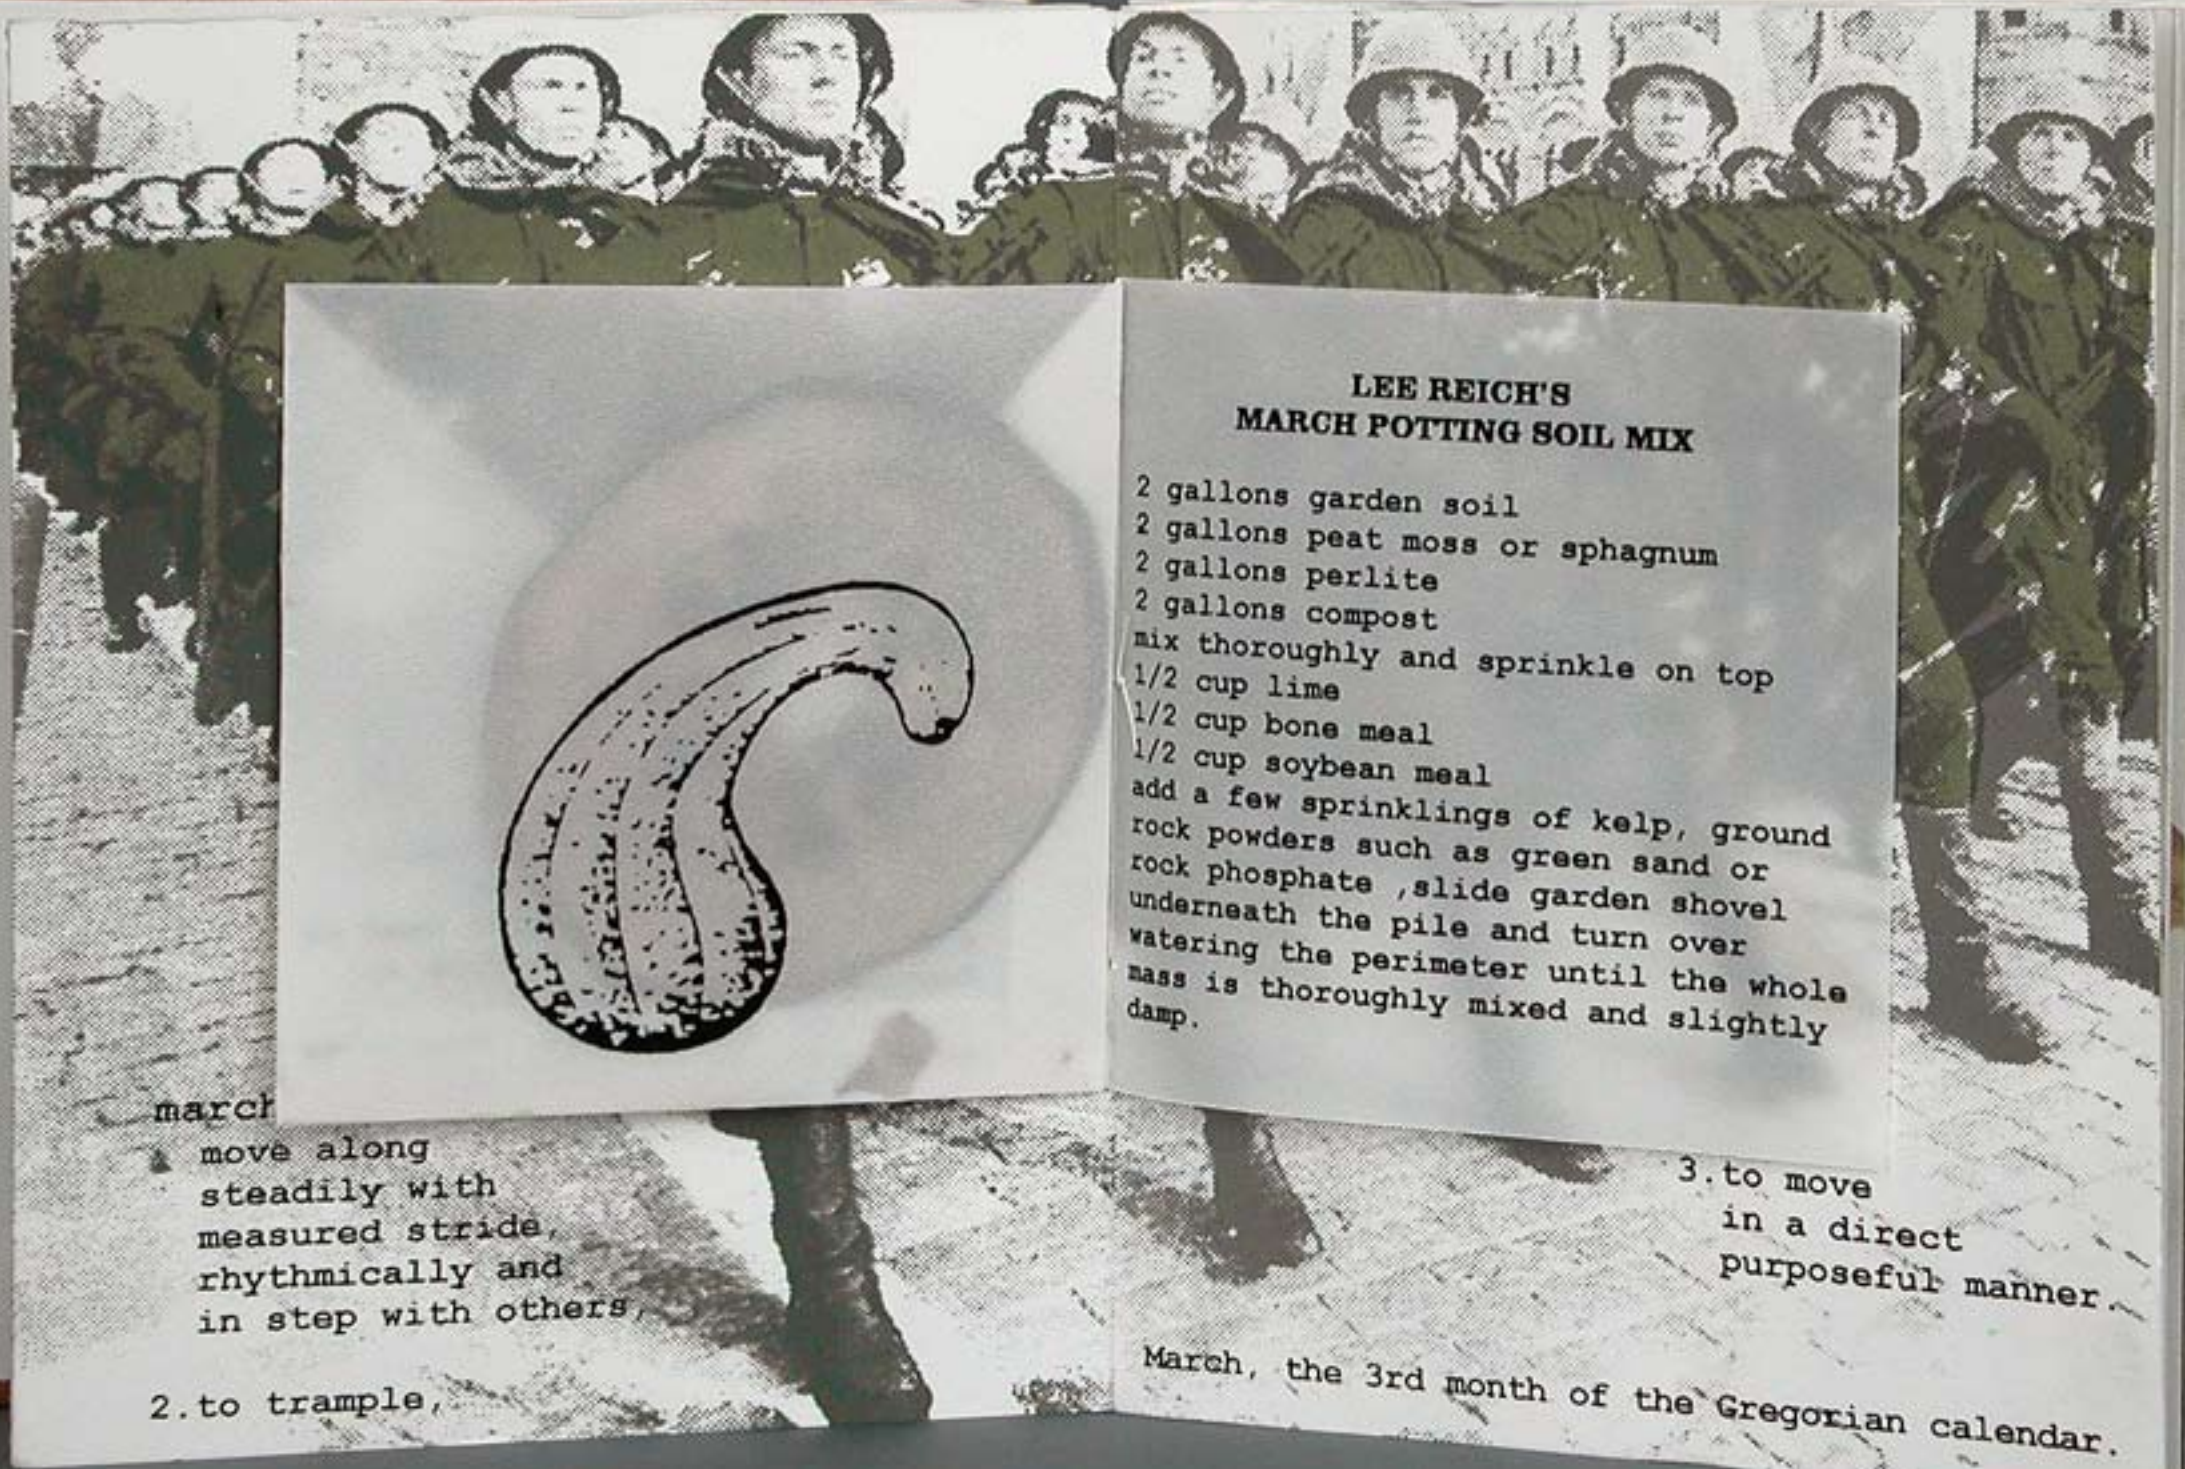

march, 1. to
move along
steadily with
measured stride,
rhythmically and
in step with others,

2. to trample,

squash, 1. vine of the gourd family
which bears a fleshy fruit.
2. the fruit of this plant used as
a vegetable. [squash is from an
American Indian word
(askutasquash) meaning "vegetables
eaten green."]

in a direct
purposeful manner.

March, the 3rd month of the Gregorian calendar.

**LEE REICH'S
MARCH POTTING SOIL MIX**

- 2 gallons garden soil
- 2 gallons peat moss or sphagnum
- 2 gallons perlite
- 2 gallons compost
- mix thoroughly and sprinkle on top
- 1/2 cup lime
- 1/2 cup bone meal
- 1/2 cup soybean meal
- add a few sprinklings of kelp, ground rock powders such as green sand or rock phosphate, slide garden shovel underneath the pile and turn over watering the perimeter until the whole mass is thoroughly mixed and slightly damp.

march
1. to move along steadily with measured stride, rhythmically and in step with others,

2. to trample,

3. to move in a direct purposeful manner.

Lightning strike kills Sullivan woman 46

DIVINE CORNERS (AP) - A woman who was harvesting ripe garlic bulbs from her prized organic garden was killed by lightning, a newspaper reported Wednesday.

Patricia D'Auria, 46, died instantly when the lightning hit the ground near where she was kneeling, traveled through the garlic bulbs she was plucking and into her body, police said.

"It would have been just like she was sitting in an electric chair," Fallsburg town police Lt. Bart Rasnick told The Times Herald Record in Middletown.

Mrs. D'Auria's husband, Joseph, found her body 22 hours after the incident when he returned Sunday after his 24-hour shift as a New York City firefighter, Rasnick said.

ight.

The mushroom above ground is the spore-producing fruiting body of the mushroom plant which is in the soil, leaf litter or wood on which the mushroom is found. The plant consists of tiny white strands (mycelium)

which run through the material on which the plant lives. Mushrooms do not contain chlorophyll and must obtain their necessary carbon compounds from other plants.

2. to walk
proud or
way: The
man stalked
room. 3. to
silently
Fear stalked
4. act of

stalking [stalk is shortened form of
an Old English word (bestealcian)
meaning "to walk carefully."]

stalk, 1. slender rod that supports

something. A flower's
stem is a stalk.

2. slender group of
leaves or stems: a
stalk of celery.

[stalk is formed
from an Old English
word (stela, staela)
of the same meaning,

plus the ending (-ock) meaning "little."]

Stalks

*Harvest
of hatred?*

Police are trying to find out who carved out this 60-foot swastika in a 30-acre corn field in Mansfield, N.J. Farmer Joe Goodenough, who said he was unaware of the Nazi symbol in his field until a newspaper reporter showed him an aerial photo, called it 'very disturbing.'

Ozzie and Harriet go to terrorism school

Pipe bombs capable of shattering a courtroom were stashed in barbecues, and transported by bicycle. At potluck dinners,

they learned how to pack black gunpowder into metal cylinders and to make fertilizer do considerably more than spur tomato growth.

The form of the pistol must depend on that of the carpels, on their number and on their arrangement. A simple pistol is formed of a single carpel, and a compound pistol of several carpels.

Some kind of swap!

About five years ago I placed an ad in your Seed Swap column (Gardeners' Exchange). As usual, I received tons of responses, and actually started a regular correspondence with a few of these seed swappers. I particularly enjoyed

corresponding with a Mr. Dalrymple.

I eventually even traveled from my home in South Carolina to visit him in New Jersey.

We got married this November. All I can say is that was one heck of a seed swap!
