...a tree

planted by a watercourse

... yields its fruit in season

and its leaf never withers...

one psalm

One Psalm is an artist's book printed on handmade paper from a woodblock by Sue Bucholz. The color and text were silk screen printed. The work was done at the Women's Studio Workshop in Rosendale, New York.

Sue Bucholz lives in Western New York surrounded by apple orchards. The seasons and rhythms of natural life are reflected by the ever-evolving planted, growing, maturing and decaying trees. In this book the artist uses fruit trees as the symbol of the tree presented by the psalmist.
