Making the Machine:
the Cold War

II
Painless Injection:
the Congo

Manufacturing
Markets:
the Marshall Plan

An Apple a Day:
the Korean War

Firewatching:
Waco

Piece of the Pie:
Palestine

Good politics
is the oil that
makes human affairs
run smoothly...
It is worth
working for,
for it is more
precious than gold.

Because
Americans
are sincerely
interested in the
welfare of others,
the United States
has become the
recognized
leader of the
Free World.

Helping low-income countries
has become part of American
foreign policy. Deciding how
to do it is not easy. One way is
through the promotion of trade

From our point of view,
the greatest
danger is
communism.

We have learned in painful
ways that the communists
are a strange and ruthless
crew. They are intent
upon seizing world
power in

any way they can.

**FRIENDLY
DICTATORSHIPS**

It must be admitted
that some of our allies
have rather unsavory,
dictatorial types
of government.

Cut out the damaged... and insert a compressed...

Scale 1:35,000

Azimuthal Equal-Area Projection

and Islands... and the... Islands...

It is unhappily true, also, that a great nation today must devote much of its strength to building up its means of defense. It must do this if only to make sure that it will be left alone.

Perhaps one of our knottiest problems is an economic one that has to do with technology and surplus.

What does a nation do when its technology - its techniques - produces more than the nation's people can buy?

The two target cities largely had been sp
from heavy air attacks prior to the atomic bo
indescribable terror and
ings in order to provide relatively "pure" cases
measuring the results. Therefore, morale prior
and bombings was comparatively high. Reacti
of the bombings were indescribable terror and
of the bombings was less than one-fifth of the peopl
who were living in or near the two cities after the
explosion expressed hatred of the Americans for
using the bombs. Like the people of other cities,
they turned most of their resentment against their
own leaders.
In the months following the bombings,

To make one's rule,
"Grab your share while
the grabbing is good,"
makes enemies
instead of friends.
As it is with people,
so it is with
governments.

~~One thing all Americans
want is to make
our economic system
and way of life
attractive to many
other people. We want
to do everything in
our power to make
the image of America
not only pleasant
to look at, but also
a true one as well.~~

One of the very first sentences of the charter of the United Nations says that the principle of the sovereign equality of nations is endorsed. This sentence can be misunderstood, just as one can misunderstand the sentence in the Declaration of Independence which says that all men are created equal.

Democracy is a way of life that requires much experience. To hold free elections, and to abide peacefully by the results of those elections, are political ways that take time to learn.

II

tropical savanna. Top, the giraffe in his native habitat. Not
ered trees. The acacia is relished by the giraffe.

the natural vegetation.

Patriotism is the spirit
that holds the people
of a country together.
If we had no
patriotism, we
would soon have
no country.
